SUBJECT INDEX

1974, Volume 49

- Acidosis, severe proximal renal tubular, associated with infantile rickets, responsive to vitamin D, 955
- Adopted child, fate: review article, 165
- Adrenal changes in chorioamnionitis: short report, 149
- in stillborn infants: 494, P.
- glands, fused, 10 cases, 75, P.
- hyperplasia, congenital: annotation, 1; correspondence, 830
- — — growth and skeletal maturation, review of 20 cases, 4
- — — plasma 17-hydroxyprogesterone in newborn infants with, compared with infants with normal adrenal function, 192
- Adrenocortical steroids, individual, excretion in obese children, 946, 822, P.
- African baby, low-birthweight, short report, 156
- Airway resistance and thoracic gas resistance, measurement, infancy, 611
- Albumin, in meconium, immunochemical method for detection, 602
- Aldosterone concentration and plasma renin activity in children, 823, P.
- Alimentation, parenteral, complete, minimizing systemic infection during, small infants, 16
- ϵ -Amino caproic acid, in hereditary angioneurotic oedema therapy, 636
- Amniotic fluid, hepatitis B antigen and antibody in, 936
- Anaemia, congenital erythroid hypoplastic, in mother and daughter: short report, 71
- Analgesic, postoperative, use of Pentazo cine (Fortral) in children: short report, 488
- Androgen excretion, as measured by testicular function test, prognostic significance, 822, P.
- Angiography, total brain opacification during, 560
- Angioneurotic oedema, hereditary, therapy, 636
- ANNOTATIONS: Congenital adrenal hyperplasia, 1
- Copper metabolism in children, 589
- Drugs for bedwetting, 257
- Placental insufficiency—a questionable concept, 915
- Renin and hypertension in childhood, 831
- Antenatal tests of pulmonary maturity and pulmonary function after birth, 243, P.
- Antibodies, circulating, to wheat gliadin fractions in coeliac disease, 454
- *see also* Australia
- Anticonvulsant drugs, prevalence and treatment of vitamin D deficiency in children on, 344
- Aorta, spontaneous rupture, 13-year-old boy, 498, P.
- Arterial calcification, idiopathic, infancy, 82, P.
- Arteritis, giant cell, and basilar artery thrombosis, 75, P.
- Artificial ventilation of newborn, quality of survival after, 703
- Ascorbic acid, effect on urinary hydroxyproline of children receiving corticosteroids, 400
- in fetal human brain, 278

- Asphyxia, severe birth, outcome, follow-up 6 years, 820, *P.*
- Asthma, childhood, beclomethasone dipropionate aerosol treatment, for minimum of 13 months, 591
- experience with betamethasone 17-valerate by aerosol, 243, *P.*
 - the effect of B17-V inhalation on hypothalamic-pituitary-adrenal axis and on growth, 747, *P.*
 - mite-sensitive, trial of avoidance measures, 716
 - role of house-dust mites, 711
 - severe acute, management: personal practice, 143
- Australia antigen (Au-Ag) and Australia antibody (Au-Ab), prevalence in transfused children with thalassaemia in Greece, 450
- Autonomic function and metabolic studies in partial lipodystrophy, 627
- B17-V *see* Betamethasone 17-valerate
- Babies, Negro and White, early development, comparison, 40
- Bacteriuria, significance in Cardiff schoolgirls, 823, *P.*
- Basilar artery thrombosis, and giant cell arteritis, 75, *P.*
- Beclomethasone dipropionate aerosol, in treatment of childhood asthma for minimum of 13 months, 591
- Bed-wetting, *see* Enuresis
- Benztropine treatment in phenothiazine drug intoxication: short report, 664
- Betamethasone 17-valerate by aerosol, in childhood asthma, 243, *P.*
- effect on hypothalamic-pituitary-adrenal axis and on growth in asthmatic children, 747, *P.*
- Bile salts, role in fat malabsorption of premature infants, 174
- Bilirubin binding in serum in neonatal jaundice, Sephadex gel filtration in estimation, 886
- Biopsy, lung, open, in diffuse lung disease, 27
- renal, quantitative assessment of histological changes, 75, *P.*
 - small intestinal, quantitation, 747, *P.*
- Birthweight, low, in African babies: short report, 156
- cord haemoglobin in infants with, 382
 - folic acid in infants with, 736
 - phototherapy for hyperbilirubinaemia in, 60
 - preterm infants, iron status and response to iron, 386
 - serum and erythrocyte folate levels in, 749, *P.*
 - and subsequent growth of children exposed to rubella infection *in utero*, 50
- Blood, cord, and maternal blood, and amniotic fluid, hepatitis B antigen and antibody in, 936
- cultures, capillary, 318
 - heparinized or ACD, in exchange transfusion, metabolic and hormonal changes during and after, 940
 - pressure, difference between upper and lower limb using Doppler techniques, 734
 - measurement in infants: correspondence 970
- Bolus obstruction, milk, in the neonate, 825, *P.*
- Bone deficiency in Turner's syndrome measured by metacarpal dimension, 821, *P.*
- disease in hepatobiliary disease, 641
- Brain development, disordered, in small-for-dates infants, 496, *P.*
- fetal human, ascorbic acid concentrations, 278
 - maturation and damage in infants dying from chronic pulmonary insufficiency in the postneonatal period, 359
 - opacification, total, during angiography, 560
- Bray's discovery of pathogenic *Esch. coli* as a cause of infantile gastroenteritis: correspondence, 668
- Bronchial lability, exercise-induced, in assessment of genetics of wheezy children, 242, *P.*
- Bronchiolitis, severe viral, management: personal practice, 143
- Bronchitis, wheezy, effect of nebulized salbutamol, 243 *P.*
- Burkitt's tumour, childhood lymphoma resembling, Southern Argentine: correspondence, 970
- C3 levels, serum, in acute glomerulonephritis: correspondence, 499
- Calcification, arterial, idiopathic, infancy, 82
- ectopic, use of diphosphonates in diseases associated with, 828
- Calcium and magnesium, intestinal absorption of, in hepatobiliary disease, infancy, 90
- gluconate, magnesium sulphate, and phenobarbitone, comparisons in treatment of neonatal hypocalcaemic convulsions, 244, *P.*
 - urinary excretion, healthy children, 97
- Cancer, hepatic, primary, childhood, 496, *P.*
- Candidiasis, pulmonary, treated with 5-fluorocytosine: short report, 154
- Capillary blood cultures, 318
- Cardiology, paediatric, heart surgery in infants, 818, *P.*
- Cell separator, continuous flow, use in paediatrics, 819, *P.*
- Cerebellar lobes, lateral, deformity in meningocele, 495, *P.*
- Cerebrospinal fluid, in acute childhood leukaemia: cytocentrifuge studies, 496, *P.*
- osmolality, value of measuring in hypernatraemic dehydration, 828, *P.*
 - studies in newborn infants with neurological abnormalities, 351
- Chloramphenicol toxicity, 'grey toddler': short report, 235: correspondence, 913
- Chloride, sweat, experience with ion-specific electrode to measure, 828, *P.*
- Chlorpropamide, moderate dosage in pregnancy, effect on fetal outcome, 283
- Cholestasis, prolonged, osteodystrophy associated with, 747, *P.*
- Chorioamnionitis, adrenal changes: short report, 149
- Chromosome studies in investigation of stillbirths and neonatal deaths, 782
- and paediatric post mortem, 495, *P.*

- Circulation, persistent transitional, six newborn infants, 883
- Citrullinaemia, neonatal, severe: short report, 579
- Cloxacillin, effect on flora of skin and anterior nares, 826, P.
- Coagulation, disseminated intravascular, complicating surgery in childhood, 826, P.
- Coarctation of the aorta, special reference to infants, 818, P.
- Celiac disease, childhood, fingerprints in: correspondence, 80
- circulating antibodies to wheat gliadin fractions in, 454
- and cystic fibrosis, coexistence: correspondence, 500, P.
- limitations of xylose tolerance test as screening procedure, 244, P.
- reappraisal of past diagnosis, 819, P.
- secretin cells in, 244, P.
- sodium/potassium ATPase activity in, 245, P.
- Conducting tissue in common ventricle, 748, P.
- Congenital heart disease, assessment of venous admixture in infants using arterial blood gas tensions, 748, P.
- differential diagnosis in first three months of life, 729
- effect of CPAP on lung mechanics in, 748, P.
- in Nigeria, clinical and necropsy study of 260 cases, 36
- sternomastoid torticollis, intrauterine postural deformity, 824, P.
- Constipation, severe chronic, physiological aspects and treatment, 245, P.
- Continuous flow cell separator, use in paediatrics, 819, P.
- negative pressure (CNP), simple device for applying in respiratory distress syndrome: short report, 743
- positive airway pressure, administered by nasal cannula in treatment of phrenic nerve palsy: short report, 230
- (CPAP) twin nasal cannula for administration to newborn infants: short report, 228
- in respiratory distress syndrome, experience with, 748, P.
- simple device for applying in respiratory distress syndrome: short report, 743
- Continuously recording intravascular oxygen electrode, use in newborn, 853
- Convulsions, febrile, recurrence, 763
- hypocalcaemic, neonatal, comparisons of phenobarbitone, magnesium sulphate, and calcium gluconate in treatment, 244, P.
- and hyperglycaemia in children: short report, 811
- problems in National Child Development Study, 820, P.
